

## **Health Science Teacher Training**

### **SUMMER OPPORTUNITY!**

**If you are a high school science teacher or health enhancement teacher and would like to become endorsed to teach Health Science Education in your school...this professional development is for you!**

The Career and Technical Education (CTE) area of Health Science is growing to respond to the needs of the growing health care workforce in Montana and nationwide. At the high school level, you can help students master the foundational skills necessary to succeed in a health career.

**We are now accepting applications for enrollment in our**

### **Health Science Teacher Training Program**

June 13-17, 2011 @ Missoula College of Technology

Scholarships are available for travel, lodging, meals and stipend

To be eligible for the training you will need approval from you school administrator to support your efforts to start a health science class and you need to have a collegiate background in anatomy and physiology. Call or E-mail Renee Harris, Health Science Education Specialist @ 406 994-6986 or rharris3@mt.gov
